

Why Refer to CAPS PainCare?

We aim to be a trusted member of your multidisciplinary team. High quality standards and clinical expertise has earned us **JCAHO Accreditation**. Compassionate care is our hallmark. Patients receive the same level of care they've come to expect from you.

Make us your first choice in pain management and here's what to expect:

- **Expertise** built upon 20 years' experience, board certification and JCAHO
- **Availability** within days; patients don't wait to find relief from pain
- Effective management of the most **complex medications regimens**
- **ALL major insurance carriers** accepted and work with out-of-network patients
- We know **exactly** what documentation is best for workman's comp and personal injury
- **You're never out of the loop**; you hear the results within 24 hrs. of the patient visit

We offer invasive options that make chiropractic and physical therapy more effective, get patients active again, delay and in some cases prevent spine surgery entirely. Then we tailor treatment to address the underlying causes of the pain - not just mask its symptoms.
